

HOSA Competitive Events 2023 SLC schedule

All online testing will be done March 6 – March 17. We ask that all competitors taking a test for the same event to take the test on the same day at your school. The advisor will need to designate a proctor to oversee the testing at your school and the advisor cannot be the proctor. You can arrange this schedule at the convenience for your school. This is done through the HOSA system, where you need to register all the students for the conference.

Done online before conference – during testing times, these events can be participated in by as many students in your chapter as you wish as long as they have paid their registration fees.

Behavioral Health

Cultural Diversities and Disparities

Dental Terminology

Health Informatics

Human Growth and Development

Medical Law and Ethics

Medical Math

Medical Reading

Medical Terminology

Nutrition

Pathophysiology

Pharmacology

Epidemiology – this will be done during the testing period online, this event can only be done by a maximum of 3/chapter

Recognition Events – these events if there is a test is done before the conference online, all other recognition events follow the directions and if something needs to be turned in at the conference it needs to be turned in the first night of the conference to the Room where the Board of Trustees has their materials.

America's Blood Centers and HOSA Blood Drive (must follow directions on HOSA.org site)

Health Issues Exam

Barbara James Service Award (must upload volunteer hours and confirmed by advisor)

Emotional Wellbeing Challenge

New York State Achievement Test - test will be taken online during testing times, then complete activities from Program and submit by evening March 22, 2023.

Make sure to read the guidelines for these events, if there is a Part 1 Test – it must be done online before the conference during the 2 weeks of testing. This will be set up by your advisor. Competitors can take part in up to 2 of the events at the conference if they are not scheduled during the same time slot.
