

If you are participating in an event that uses Tallo for part of the information that needs to be submitted, please make sure you know to you need to upload materials to this site. The following events need to have things uploaded:

Clinical Specialty
Community Awareness
Emotional Wellbeing
Health Career Photography
Health Career Display
Health Education
Job Seeking Skills
Mental Health Promotion
Researched Persuasive Writing and Speaking
Research Poster

1. You need to set up a Tallo account - go to HOSA.org, select resources, Tallo and there is information about how to do this.
2. You need to upload all the materials by March 18, 2023. If it is not there it will not be judged.
3. You need to make sure they come to the conference to complete the competition.
4. If on Tallo in your account, put New York in the Location and just the New York Information will be shown - otherwise there are 84 pages to scan through. It must to loaded to the New York HOSA events to be considered.
5. If you win your event at the state level and want to go to the International Conference, you must upload your information to the International HOSA Tallo site again by May 15 or it will not count for the ILC.

Hope this helps.

Terry Mitchell
State Advisor
New York State HOSA
